

EVOMEC GLOBAL SERVICES

Brand Colour Palette

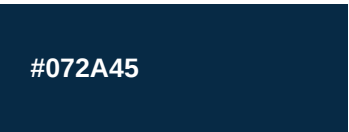

Energy • Oil & Gas • EPC

A cohesive, print-ready colour system for an established energy, oil & gas and EPC brand.

PRIMARY

Petroleum Navy
RGB 10, 61, 98 CMYK 90, 38, 0, 62
Core brand colour. Headers, primary buttons, brand bar.

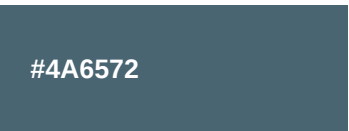

Deep Ocean
RGB 7, 42, 69 CMYK 90, 39, 0, 73
Darker anchor for footers, overlays and depth.

SECONDARY

Steel Blue
RGB 44, 110, 155 CMYK 72, 29, 0, 39
Supporting blue. Links, secondary buttons, icons.

Slate
RGB 74, 101, 114 CMYK 35, 11, 0, 55
Muted blue-grey for sub-headings and captions.

ACCENT

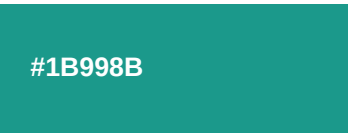

Safety Orange
RGB 240, 116, 31 CMYK 0, 52, 87, 6
High-visibility accent. Calls-to-action, highlights.

Signal Amber
RGB 245, 166, 35 CMYK 0, 32, 86, 4
Warm secondary accent for stats and emphasis.

HEALTH, SAFETY & ENVIRONMENT

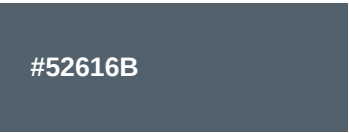

Field Green
RGB: 27, 153, 139 CMYK: 82, 0, 9, 40
HSE, CSR and sustainability communications.

NEUTRALS

Charcoal
RGB: 31, 41, 51 CMYK: 39, 20, 0, 80
Primary body text on light backgrounds.

Graphite
RGB: 82, 97, 107 CMYK: 23, 9, 0, 58
Secondary text, labels and metadata.

Mist
RGB: 201, 214, 223 CMYK: 10, 4, 0, 13
Borders, dividers and disabled states.

Cloud
RGB: 240, 244, 248 CMYK: 3, 2, 0, 3
Section backgrounds and cards.

White
RGB: 255, 255, 255 CMYK: 0, 0, 0, 0
Page background and reversed text.

Applying the palette

- 60 / 30 / 10 rule — Petroleum Navy dominates (~60%), neutrals and Steel Blue support (~30%), Safety Orange used sparingly for accents and calls-to-action (~10%).
- Keep body text in Charcoal on white or Cloud backgrounds for readability.
- Reserve Safety Orange and Signal Amber for emphasis — never large text blocks.
- Use Field Green only for HSE, CSR and sustainability contexts to keep it meaningful.
